OEM-Quality Products

Time-Tested, Proven To Perform

Kent Automotive knows what it takes to drive your business.

It starts with delivering a full line of OEM-quality products – a combination of time-tested and innovative formulations proven to perform. We get to know your operation, understand your product usage, and anticipate your needs at every turn. Then, we show you how to boost productivity – and profitability – by providing ongoing training.

Kent Automotive partners with you to achieve the ultimate goal of running an ultra streamlined and service-focused business.

We're Your Partner In Profitability.

OEM Approved and OEM Recommended

Kent Automotive products that are OEM Approved are tested by an OEM manufacturer or laboratory and can be used for off-line repairs.

Kent Automotive products that are OEM Recommended are tested and meet a quality standard required for repair.

Kent Automotive's Service Bulletin Search

Service Bulletin Search at kent-automotive.com enables customers to easily search OEM-supplied communications about vehicle service issues and recalls that specify or can be addressed with Kent Automotive products.

Optimized Inventory Management

Kent Automotive's optimized inventory management system ensures the products you need are on hand and stocked according to your usage by your Kent Representative. We get to know your operation, understand your product requirements, and anticipate your needs at every turn.

Profit-Enhancing Tools for Service Departments

Our partnerships with industry-leading dealer management systems like CDK Global® and Reynolds & Reynolds® allow you access to Kent product and pricing information. If you have either CDK Global or Reynolds & Reynolds installed, you can order data files for Kent Automotive® products to use on your existing system.

Our dealer management partners include:

Complimentary In-Shop Product Clinics and Product Safety Training

Ensure the correct and effective use of products with training and in-shop clinics to support our full line of products. Technician, supervisor and office staff training is done in your shop, on your schedule.

Kwik and EZ Fill System Plus

With the Kent® Kwik and EZ Fill System Plus, charge reusable aerosol containers with product in seconds. Save up to 30% compared to the cost of aerosol cans. Save the disposal cost on up to 600 aerosol cans for every 55-gallon drum of brake cleaner applied with the Kent Kwik and EZ Fill System Plus.

- Economical alternative to standard aerosol products such as brake cleaners
- One charge completely fills a 32 oz. AERO-miser™ container
- Fills and charges in one step
- Avoids costly aerosol can disposal fees

Brake Lubrication and Noise Elimination

Kent Synthetic Disc Brake Caliper Grease

A synthetic disc brake caliper grease designed to lubricate under the most adverse conditions.

Kent K-44 Silicone Lubricating Compound and Dielectric Grease

Durable paste to lube and protect rubber parts from typical environmental deterioration.

Kent Brake Silencer

Unique formula fills voids and pores in friction material to stop most brake noise at its source without affecting braking efficiency.

Kent Rusty 2000 Brake Plate and High Temperature Lubricant

High-quality, electrically conductive lubricant for long life metal-to-metal contact in high-heat and high-moisture environments. Prevents both galling and corrosion.

Kent Rusty Brake Plate, Caliper Lubricant and Anti Seize

High-quality, electrically conductive lubricant for long life metal-to-metal contact in high-heat and high-moisture environments. Prevents both galling and corrosion.

Wheel Weights

Get access to a full range of quality wheel weights without the worry of hazardous lead disposal. Our wheel weights have received a proud seal of approval: they're used and trusted by OEM's. Manufactured with high-density zinc or steel and poly-coated for longevity, Kent Automotive's wheel weights are available in many sizes and configurations for precise balancing and steady shop throughput. Lead wheel weights are available upon request.

Wheel Weight Assortments

Tire Pressure Monitoring System Service Kits

Repair vehicle and light truck tires quickly and easily with Kent Automotive's selection of tire valves. With a variety of lengths and styles available, your team can keep the rubber on the road.

Brake Bits

When resurfacing brake drums or rotors, you can get more cuts per bit when you select Kent Automotive's products featuring special fine-grain carbide steel with either positive or negative rake. Whether you are looking to reduce roughness, improve the cutting process, or improve your cycle time, our little bits go a long way.

Quill Tire Patches

Patch any repairable area of radial or bias-ply tire from the tread to side wall. With a metal quill for quick installation, our self-vulcanizing tire patches restore tire condition and drivers peace of mind.
